DECISION TO TRANSFER SERIALIZATION TO JUMP GIGA!

Dear Reader,

Thank you as always for reading "Black Clover".

Weekly Shonen Jump's serialization of "Black Clover" will end this week and the serialization will be transferred to Jump GIGA.

The serialization will resume in the upcoming December 2023 Winter Issue of Jump GIGA. Details will be announced in future issues of Weekly Shonen Jump.

Thank you for your continued support.

~Weekly Shonen Jump Editorial Department

Message from Yuki Tabata:

TRANSFERRING TO JUMP GIGA!!!

The serialization of Black Clover has been going on for a long time, and so the increasing demands of the schedule for a weekly serialization have been clashing more and more with my own situation as a manga author.

So, after discussing this with the editorial department for a while, we have decided to transfer the serialization to GIGA at this time. It's a sudden move and so it might surprise readers. I would also like to apologize for not being able to finish the serialization in Weekly Shonen Jump.

However, at GIGA, I believe I can proceed with the climax of Black Clover in the most optimal condition which also aligns with my personal situation as a writer!

There are still quite a few stories I'd like to draw, that I also MUST draw, so please look forward to them.

I'll do my best to bring Black Clover to a successful conclusion!!

While this may need a bit of your patience, I will definitely power up in the upcoming Winter issue of GIGA, so I would be grateful if you could keep an eye on Asta and everyone else's future.

Thank you very much for your continued suppooooooort!!
